Notice of Possible Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The application has been amended as follows:

In the Title

The title has been changed to: --BIODEGRADABLE MOLDINGS--.

In the Specification

On page 1, immediately after the title, the following sentence has been inserted:

--This is a 35 USC 371 filing in the United States based upon PCT/EP96/04016, filed on 12 September 1996, which had priority from PCT/EP95/03592, filed 12 September 1995.--

In the Claims

Claims 65-70 have been cancelled.

Remarks

The title has been shortened. The specification now contains a reference to earlier PCT filings, upon which this application is based. The non-elected claims have been cancelled.

DRAWINGS

4. New drawings are required. The photocopied figures originally presented were objected to as indicated on the form PTO 948 which accompanied the March 16, 2000 Office Action (Paper No. 9).

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

6. The sole base claim is claim 60. It can be summarized as follows:

Claim 60 covers a process for making a substantially completely biodegradable molded body for use in packaging comprising:

- a. mixing a biodegradable fiber material of fiber (bundles) having lengths of 0.24 to 4.32 mm, water and starch,
- b. putting the mixture of step a into a mold having a desired shape,
- c. heating the mixture in the mold for a time and at a temperature to effect the baking into a cohesive mass having the desired shape, and
- d. applying a biodegradable, hydrophobic, softener-free, liquid impenetrable boundary layer to the shaped mass.

7. The dependent claims refer to the use of a filler (claims 61 and 62), certain types of films in the boundary layer (claims 63 and 64), and a mixture consisting essentially of the fiber ingredient recited in step a (claim 71).

8. The closest prior art found can be summarized as follows:

Tiefenbacher (US 5,376,320) teaches "rotable" shaped bodies made by baking a composition that contains starch, fiber, and filler. The bodies may have plastic films

Art Unit: 1772

applied to them. However, Tiefenbacher recites ingredients and plastic films that are not biodegradable and does not suggest how to select ingredients or films that give "completely biodegradable" products.

Haas (US 5,576,049) teaches cellulose acetate coatings as water repellant layers on shaped articles. However, it does not teach application of its coatings onto articles composed of the materials recited in claim 60.

Kharas (CA 2057669 abstract) teaches the use of polylactide coatings on fibrous webs to give biodegradable products. However, it does not teach the application of its coatings onto articles composed of the materials recited in claim 60.

9. None of the cited references teach or suggest the production of molded articles having all of the features recited in claim 60.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
